Acxiom is withdrawn due to Applicant's amendment.

Allowable Subject Matter

- 6. Claims 1-13 are allowed
- 7. The following is an examiner's statement of reasons for allowance:
- 8. As per independent Claims 1 and 11-13, the prior art does not teach or suggest a method to the user to or application which parses resume data from a plurality of resume warehouses, places. Their Time II the parsed resume data into an applicant specific template and utilizes the parsed resume profile meres data for increased tracking efficiency.
- descriptive-profile mercantile method (computer program product, program storageng the steps of an device, computer system), for use at a juncture in a data-communications topology, a electronically a having associated therewith a maintained databank of partial profiles, the methodessess postal names including the steps of: a) from an entity who owns or represents a right to multipleting a databank (As profiles, electronically receiving a transaction having therein a first partial profile of as postal names single visitor to the entity, said transaction including real-time access to the single visitor that said wherein an identifier is recognized or placed on the single visitor; b) using the direct partial profile, electronically searching a databank having a plurality of second partial the entity and the profiles, wherein is included in said databank at least one null profile so that said stabank to own or a electronic searching will always yield at least one proximate second partial profile to the entity and the databank, electronically contracting for as the integral integral.

Art Unit: 3629

royalty payment for the databank to own or represent a right to a first mutually agreed portion of the first partial profile, and substantially thereafter said databank incorporating and to a secuthe agreed portion of the first profile into at least one second partial profile; or ii) a norther profile, an between the entity and the databank, electronically contracting for a royalty payment for-------the entity to own or represent a right to a second mutually agreed portion of at least one in the second mutually agreed portion of at least one in the second mutually agreed portion of at least one in the second mutually agreed portion of at least one in the second mutually agreed portion of at least one in the second mutually agreed portion of at least one in the second mutually agreed portion of at least one in the second mutually agreed portion of at least one in the second mutually agreed portion of at least one in the second mutually agreed portion of at least one in the second mutually agreed portion of at least one in the second mutually agreed portion of at least one in the second mutually agreed portion of at least one in the second mutually agreed portion of at least one in the second mutually agreed portion of at least one in the second mutually agreed portion of at least one in the second mutually agreed portion of at least one in the second mutually agreed portion of at least one in the second mutually agreed portion of a second mutually agreed said proximate second partial profile, and substantially thereafter the databanks uncomprise a first man transmitting to the user the second mutually agreed portion of the second profileding real-time acces-10. Acxiom ("Their Time Has Come," Direct, v11, n8, p1+, June 1999) discloses and on the single visit descriptive-profile mercantile method (computer program product, program)storage #1: (US 6,055,51 device, computer system), for use at a juncture in a data-communications topology having associated therewith a maintained databank of partial profiles, the method including the steps of: a) from an entity who owns or represents a right to multiple profises, the method profiles, electronically receiving a transaction having therein a first partial profile (esmailhaving there addresses/ postal names and addresses); b) using the first partial profile, electronically sea searching a databank (Acxiom) having a plurality of second partial profiles (e-mail 11-14), wherein is addresses/ postal names and addresses), wherein is included in said databanklat least one arching will. null profile so that said electronic searching will always yield at least one proximate is brofile (inite) second partial profile to the first partial profile (inherent to database searching); i) iiv agreed norman between the entity and the databank, electronically contracting for a royalty payment for opporation is the databank to own or represent a right to a first mutually agreed portion of the first one (C28 L17partial profile, and substantially thereafter said databank incorporating the agreed portion of the same and of the first profile into at least one second partial profile; or ii) between the entity and the

Art Unit: 3629

databank, electronically contracting for a royalty payment for the entity to own or represent a right to a second mutually agreed portion of at least one said proximate) coes not income second partial profile, and substantially thereafter the databank transmitting to the userne amount of the second mutually agreed portion of the second profile ("Their Time Has Come;" and the second mutually agreed portion of the second profile ("Their Time Has Come;" and the second mutually agreed portion of the second profile mercantile system does the second mutually agreed portion of the second profile mercantile system does the second mutually agreed portion of the second profile mercantile system does the second mutually agreed portion of the second profile mercantile system does the second mutually agreed portion of the second profile mercantile system does the second mutually agreed portion of the second profile mercantile system does the second mutually agreed portion of the second profile mercantile system does the second profile of a single visitor to the entity, said transaction where the second profile placed on the single visitor, as described in the independent claims.

11. Katz et al. (US 6,055,513) discloses a descriptive-profile mercantile method (computer 7 L1-10, C6 program product, program storage device, computer system), for use at a juncture in a data-communications topology having associated therewith a maintained databank of the partial profiles, the method including the steps of: a) from a user, electronically receiving on when the a transaction having therein a first partial profile (C28 L11-14); b) using the first-partial profiles a transaction having searching a databank having a plurality of second partial profiles continues and (C28 L11-14), wherein is included in said databank at least one null profile so that said the single visit electronic searching will always yield at least one proximate second partial profile (inherent); i) for the databank to own or represent a right total first finater would a mutually agreed portion of the first partial profile, and substantially thereafter said search are measured databank incorporating the agreed portion of the first profile into at least one second off of an alternatial profile (C28 L17-28); or ii) for the user to own or represent a right to a second off of an alternatially dependence partial profile (C28 L17-28); or ii) for the user to own or represent a right to a second off of an alternatially thereafter the databank transmitting to the user the second mutually agreed.

Art Unit: 3629

portion of the second profile (C28 L17-28); but Katz's descriptive-profile mercantile system does not incorporate electronically contracting a royalty payment between thes were user and the databank or a first partial profile of a single visitor to the entity, said transaction including real-time access to the single visitor wherein an identifier is recognized or placed on the single visitor, as described in the independent claims.

- party, to include profile and contact information (C12 L15-45), and providing 0662. The examiner or compensation to users who agree to sell their information to individual marketers0pm.

 (abstract, C7 L1-10, C8 L59-61) and it would have been obvious to pay the third(partys to reach the (databank) for the information, wherein the third party distributes a percentage of the fee haling Visition to the profile owner, as licensing/royalty agreements were a well known way of paying for information when the invention was made; but Goldhaber's profile marketing systemanical does not incorporate a first partial profile of a single visitor to the entity, said transaction of a generical including real-time access to the single visitor wherein an identifier is recognized or be directed to the placed on the single visitor, as described in the independent claims.
- 13. Furthermore, the combination of the profile marketing systems provided by Axiom, Katz, and Goldhaber would still not teach (or provide the basis for obviousness) lall the 'features' described in the independent claims.
- 14. The remaining dependent Claims 2-10 are considered allowable, as they are dependent and based off of an allowable independent claim.
- 15. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany

Art Unit: 3629

the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

- examiner should be directed to Jonathan Ouellette whose telephone number is (703) 6052 in Single 1000 0662. The examiner can normally be reached on Monday through Thursday, 8am. Finding.
- 17. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, John Weiss can be reached on (703) 308-2702.
